QUEST CLEANTECH FUND R (LU1171478784)

A sub-fund of QUEST MANAGEMENT, SICAV
Management company: VP Fund Solutions (Luxembourg) SA

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read this document so that you can make an informed decision about whether to invest.

Objectives and investment policy

- The objective is to achieve long-term asset growth.
- The compartment is actively managed.
- The sub-fund is exclusively investing in cleantech companies, mainly stocks listed in developed markets. Cleantech can be defined as products and services that provide cleaner or more efficient use of the earth's natural resources, such as energy, water, air and raw materials. The sub-fund focuses on cleantech companies in areas such as renewable energy, energy efficiency, water treatment, waste management, pollution control and advanced materials. On an ancillary basis, the sub-fund may invest in stocks of cleantech companies listed in emerging markets as well as in convertible bonds issued by cleantech companies.

This is a sub-fund with environmental and/or social characteristics (Art. 8 Regulation (EU) 2019/2088, Disclosure Regulation). The sub-fund integrates environmental, social and governance (ESG) considerations in the investment strategy of the sub-fund. ESG is implemented in the investment strategy through the thematic approach as indicated above. Additionally, ESG sustainability factors are integrated in the portfolio construction and stock selection process and exclusion factors are applied to sectors and activities with major ESG sustainability risks.

- The fund does not use derivatives.
- Units may be subscribed for and redeemed daily under the conditions set out in the fund documents.
- Net income and realised capital gains are reinvested.

Risk and return profile

This risk indicator is designed to illustrate the fund's risk/return profile. The higher the rating on the scale, the greater the earnings potential, but also the more significant the risk of suffering a loss. This risk indicator is based on historical data and therefore cannot predict future performance. The rating may change in future and does not represent a guarantee. A category 1 rating also does not represent a completely risk-free investment. The unit class is rated as category 6, because the unit class price has demonstrated high levels of variation in the past.

The following risk categories may be of significant importance and are not adequately encompassed in the risk indicator:

Liquidity risks: Where a significant level of investment is made in financial instruments, which by their nature are sufficiently liquid, but which under

certain circumstances can have a relatively low level of liquidity, this may have an impact on the level of liquidity of the sub-fund as a whole.

Default risk: The fund transacts business with several counterparties. If a counterparty becomes insolvent, the fund's outstanding debts may not be paid or may only be partially paid.

Operational risks and risks relating to the custody of assets: The fund may fall victim to fraud and/or other criminal activities. It may incur losses due to external events, insufficient internal processes, system failures or human error on the part of the management company, depositary/sub-depositary or external third parties.

Credit risks: The sub-fund may invest directly or indirectly in bonds / convertible bonds. If the issuer of a bond / convertible bond does not pay interest on time or does not repay the nominal amount, the bond / convertible bond may suffer a significant or total loss of value. A downgrading of the issuer's credit rating may also cause the bond / convertible bond to suffer a significant or total loss of value.

Charges

Fund fees and other charges finance ongoing fund administration, the custody of fund assets and the distribution of fund units. Charges due reduce your earnings potential.

One-off charges payable before and after you invest	
Subscription commission	max. 2.00 %
Redemption commission	max. 0.00 %
Conversion commission	max. 1.00 %

This is the maximum amount that might be charged on top of the unit value before investment or deducted from the redemption price before it is paid. Commissions may be lower in individual cases. You can find out details of the current charges from your financial advisor or the unit responsible for you.

Charges payable over the course of the year	
Ongoing charges	1.6400 %

Performance-linked fees and transaction costs are not included in the ongoing charges, with the exception of any commissions paid when buying or selling units in target funds. The ongoing charges stated here were incurred during the fund's last financial year, which ended on 31 December 2020. They may vary from year to year.

Costs payable under certain specific conditions	
Performance fee	No

You can find further information on the charges and how they are calculated in the sales documents, which are available on the management company's website at www.vpfundsolutions.com.

Past performance

Past performance is not a guarantee of future performance. When calculating past performance, all charges and fees were deducted, with the exception of commissions possibly paid when buying or selling units. The past performance was calculated in EUR. The unit class was inception on 31 March 2015.
